

# Fitting Report for HY30

**Description:** HyCool 30, Potassium formate  
**Source:** Technical Information. Hydro Chemicals, 2000.

**Temperature:** -30.0 °C to 50.0 °C  
**Composition:** pure fluid  
**Density:** coefficients to polynomial (2, 1)  
**Spec. Heat:** coefficients to polynomial (2, 1)  
**Th. Cond.:** equation to polynomial (4, 1)  
**Viscosity:** equation to exponential (3,)  
**Psat:** no information  
**Tfreeze:** no information
